SPACETECH FOR EDUCATION
E-LEARNING SOLUTION

THURAYA

WHAT IS THE CUSTOMER CHALLENGE?

- Limited access to distance learning due to bad data connection speeds
- The conventional approach of physically interacting with teachers is not feasible in certain scenarios, such as pandemic or work-from-home situations

WHO IS FACING THIS PROBLEM?

- Department of Education
- Enterprises operating in remote areas

SOLUTION DESCRIPTION & CAPABILITIES

Solution Description

Niflink e-Learning Solution

Niflink helps educational institutions across the globe create distance learning systems that make virtual classroom experiences more accessible for everyone.
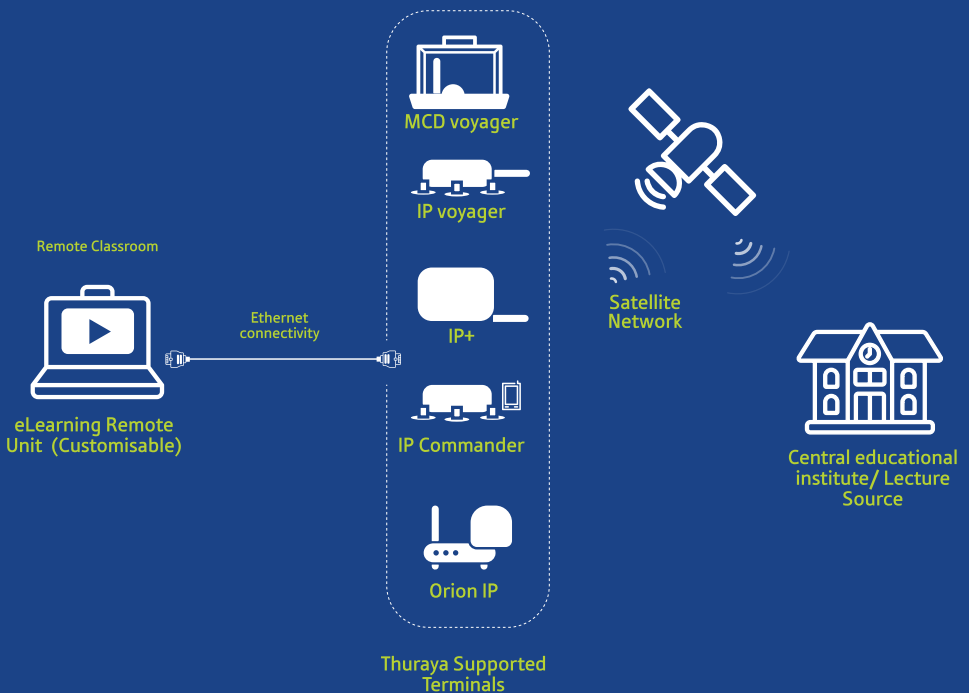

Capabilities

- Enhancing virtual learning environment with a digital whiteboard
- Software that runs seamlessly on low bandwidth
- Customisable solutions based on project requirements
- Promotes airtime usage and creates stickiness for our connectivity services
- Additional revenue stream for Thuraya and service partners

IMPACT

1 Connect your school, university or institution with learners who live in digitally disadvantaged areas

2 Connect people to education using smarter technology
